

The Fastest Pill Counter Ever!

Just Count and Fill

The VIVID Rx is the pill counter you have been waiting for. Real-time counting and 99.99% accuracy guarantee you won't miss a pill. Cost effective and maintenance-free counting is here.

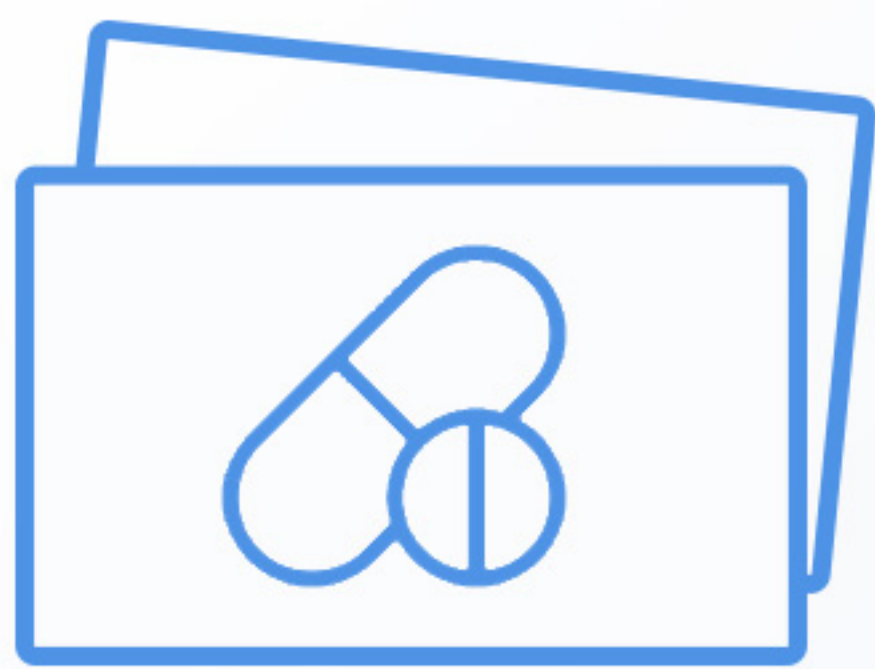

FUNCTIONS

- Exceeds 99.99% Accuracy
- Instant Real-Time Counting Results
- Image Log
- Count Verification
- User Authentication
- Transaction Log
- Rx Verification
- Quick Count
- Narcotic Double Count
- Single Scan
- Partial Count Tracking
- National Drug Code Database

FEATURES

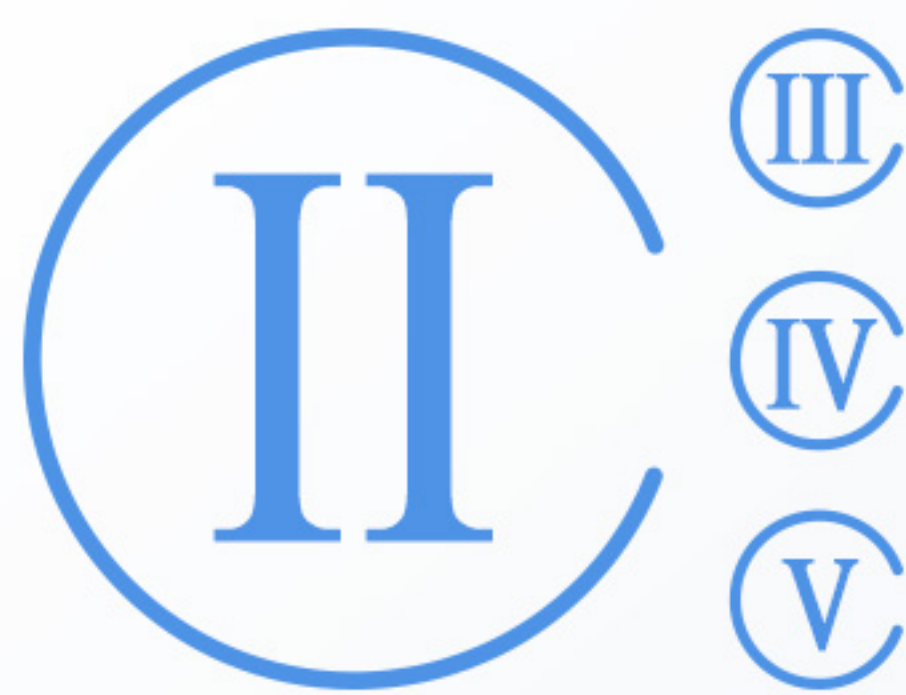

- Easy to Use Cloud Account
- Built-in Barcode Scanner
- High-Capacity Counting Surface
- 10.1” Large Touch Display
- Intuitive User Interface
- Compact Design and Small Footprint
- Smart Semi-Automatic Shaking
- USP <800> Compliant
- Wi-Fi, Ethernet, and USB
- Maintenance Free
- Guaranteed Free Updates
- Premium and Accessible Design

The VIVID keeps a record of everything. An image is automatically captured showing exactly what was dispensed on the tray when the transaction is completed.

The VIVID meets the standards and requirements for safe handling of hazardous drugs as defined by USP General Chapter <800>.

It validates and enforces double counts of CII, CIII, CIV, and CV drugs to make sure the right drug and quantity is dispensed.

Just count and fill with the Quick Count mode. No barcode scanning, calibration or pill training required.

Performs quick Rx validation to make sure the right drug is dispensed to the right patient.

Transactions are logged and stored in the user's online cloud account.

FAMILIAR AUTOMATION

Counting and dispensing is effortless. Simply tilt the tray to place the pills into the dispensing tubes and easily transfer the pills to the patient's vial.

The VIVID is equipped with two easy to handle dispensing tubes for left and right-handed operation.

Use the spatula to quickly adjust for excess pills, then snap it on to the VIVID to keep it secure and always accessible.

3 EASY STEPS:

DISPENSE
Dispense pills onto the tray!

COUNT
Confirm the count.

FILL
Tilt the tray and transfer the pills to the patient's vial.

SPECIFICATIONS
