

Cautionary Notes and Precautions

Never stand under a force gauge in use. Equipment may fall or collapse, causing breakage and possible injury.

Keep safe distance from the load cell. Always use safety gloves, safety glasses and other protective gear.

Always keep the force gauge and the power supply from water or other liquids.

Damaged batteries must be handled with extra care. Use rubber gloves and safety glasses. Dispose only in designated recycling centers.

Always disable charging before installing disposable batteries. Charging non-rechargeable, alkaline batteries can be hazardous and cause damage to the force gauge.

CAUTION:

- The force gauge is designed for indoor use only.
- Do not operate the force gauge in hazardous areas or under dangerous conditions.
- Do not use the force gauge in locations subject to high humidity or dust.
- Do not connect cables in ways other than those mentioned in this manual.
- Never stand on or lean on this product. Equipment may fall or collapse, causing breakage and possible injury.
- Before moving the product, unplug it and unplug all cables connected to it.
- When storing, transporting or returning the force gauge for service, always use the original packaging.

WARNING:

- Never attempt to repair, disassemble or modify the force gauge. Tampering with the force gauge may result in injury and cause greater damage to the equipment.
- Be sure to use the specified power source.
- Do not allow foreign matter to fall onto the force gauge.
- If water or other liquid spills onto the force gauge, unplug the power cord immediately and contact technical support.

- Disposal of electronic equipment in waste containers is forbidden by law.
